# Highlights

**NEW**

## The WC pan that beats all formulas for easy cleaning.

The rimless WC pan Rim-ex prevents proliferation thanks to its innovative design. Rim-ex is easy to clean, and offers maximum hygiene. Rim-ex WC pans are available in various models suitable for all bathroom styles.

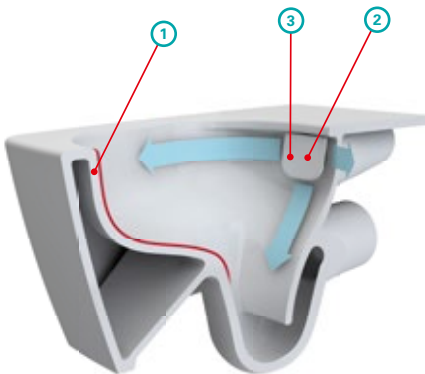

- Easy cleaning with one wipe
- 95% more hygienic\*
- No rim or hole where dirt or harmful organisms could collect

### \*Clearly superior:

Tests undertaken by the Akdeniz University show Rim-ex is easier to clean and 95% more hygienic as compared to standard WC pans.

### 1. Rimless bowl

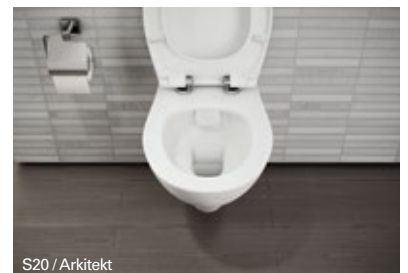

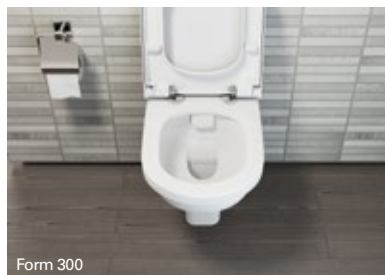

- Easy to clean surface without channel.
- No rim or hole where dirt or harmful organisms could collect.
- Bowl shape designed for efficient flushing.

### 2. Water outlet

- Optimal water distribution for efficient flush.
- No rim where harmful organisms could proliferate.

### 3. Ceramic water diverter

- Removable ceramic part for easy cleaning.

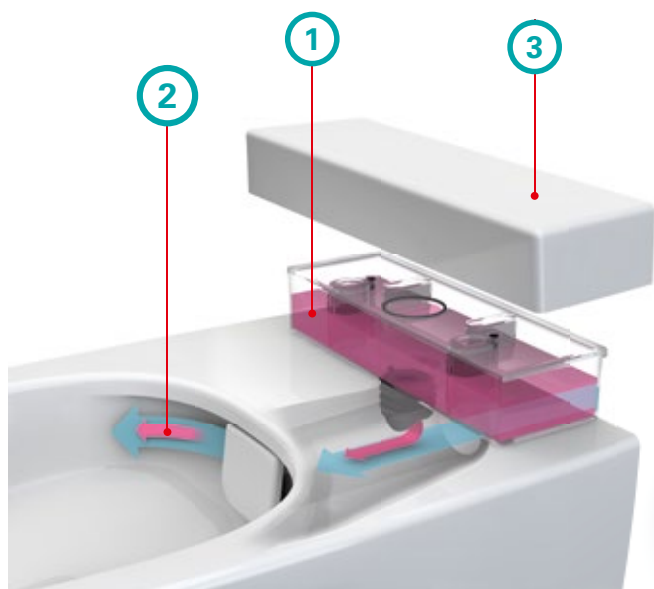

## Maximum hygiene and fresh odor WC pan with liquid cleaner tank.

**NEW**

VitrAfresh and integrated stop valf introduced with Metropole is now available in Nest series as well. The liquid cleaner tank on top of the Nest WC pan adds detergent to the flushing water, maximizing hygiene and freshening the air with every flush. The stop valf integrated to the WC pan mixes hot and cold water and provides added comfort.

- 1 Liquid cleaner tank on top of the WC pan blends detergent\* with flushing water for maximum hygiene.
- 2 VitrAfresh ensures a pleasant odor in the bathroom together with superior hygiene and sanitation.
- 3 Removable lid enables easy cleaning.

\*The liquid detergent dispenser is safe to use with hypochlorous cleaning agents (bleach at up to 12,5 pH), non-abrasive detergents and fragrances.

Exclusively  
innovative,  
exclusively  
VitrA

# Concealed Cisterns Standardization

## High quality and reliable compatibility.

The newly standardized 8 cm and 12 cm concealed cisterns can now be fitted with a range of control panels suitable for all Vitra bathroom series. Renewed product range complements bathrooms at Vitra's customary high quality.

**NEW**

Select

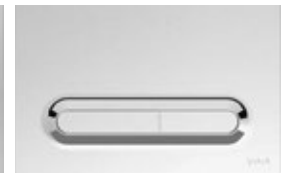

Sirius

Loop O

Loop R

Loop T

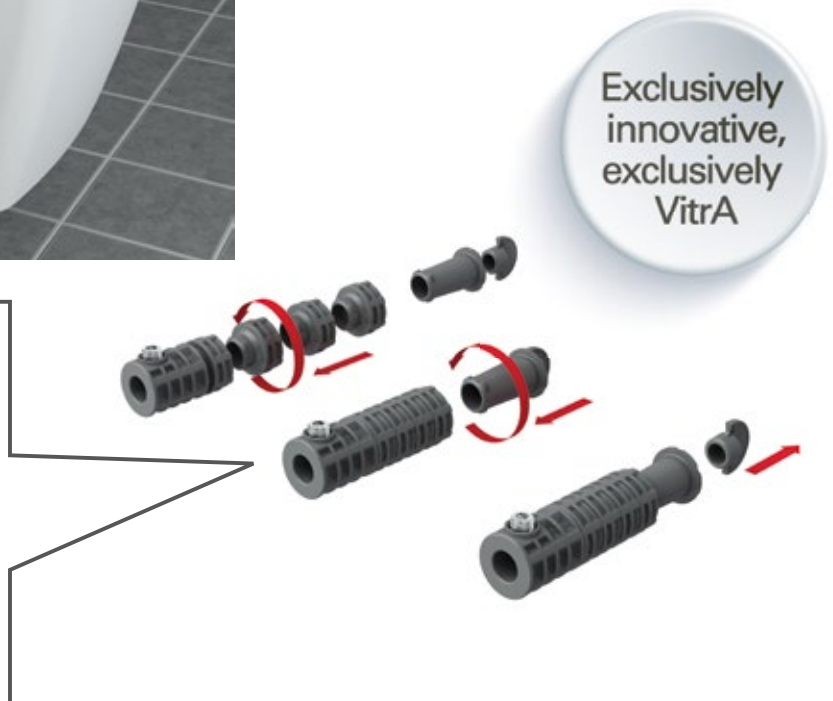

The mechanical panels are available in a wealth of models, colors and materials offering greater choice to go with every concealed cistern model. The Vitra concealed cistern panels are designed to ensure noiseless operation.

**NEW**

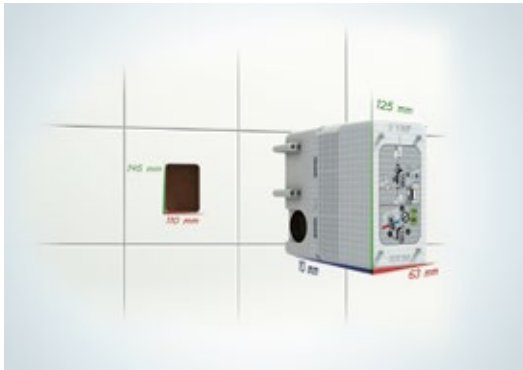

Installing a wall-hung WC pan is now easier, quicker and less costly thanks to the innovative V-Fit. Compatible with both short projection and long projection WC pan, V-Fit system is a practical solution that also provides better looking results.

## Wall mounting made easy, exclusive to Vitra.

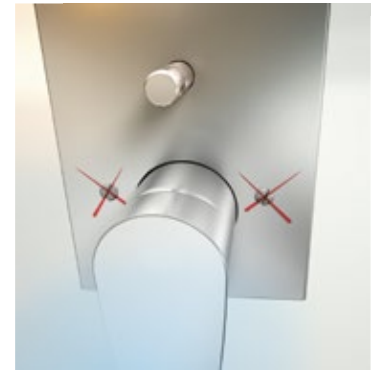

One of Vitra's most innovative technical achievements recently is the built-in mixer concealed part standardization which eliminates the urgency to choose mixers during construction. Faucets can be easily installed or changed whenever desired, without having to drill the wall. The system is noise-free, and visually superior due to the absence of visible screws. Minibox built-in bath/shower and shower mixer is the most compact model anywhere, now including thermostatic options as well.

# Blue Life

For our blue planet...

*Blue Life is Vitra's dedicated approach to sustainable production, management and design.*

**Production**, Vitra's manufacturing plants make smart use of resources and invest in recycling systems that minimize raw material consumption and energy waste.

Through adjustments in kiln temperatures, Vitra uses 15 percent less energy in firing processes.

Wastewater treatment system enables us to reuse all the effluent from the production processes and reduce freshwater consumption.

100 percent of the sludge from the ceramic sanitaryware plant is recycled as raw material for tile production.

#### **Production Certificates**

ISO 9001 Quality Management  
ISO 14001 Environmental Management  
EN 16001 Energy Management  
OHSAS 18001 Occupational Health and Safety Management

**Management**, sustainability is a central component of Vitra's management practices involving employees, stakeholders and social projects. Vitra employees receive training on efficient water and energy use, and Vitra expects its business partners to share this concern and take action as well.

Vitra is a longstanding sponsor of the Eczacıbaşı Hygiene Project, which strives to improve the quality of life at primary boarding schools through improvements in infrastructure, social programs and awareness of good personal hygiene practices.

**Design**, sustainability principles guide Vitra's design process. Smartly designed Vitra products for residential and public spaces minimize end-user water consumption.

Our urinals, WC pans and faucets enable households to save as much as 190 tons of water per year.

Inspiration from nature

# Istanbul

VitrA's expertise in production technology meets with Lovegrove's sophisticated design inspired by nature and the fluidity of water. Streamlined forms integrate with fine lines. Bathroom furniture of Istanbul series creates a perfect harmony with mineralcast washbasins and faucets. It is up to you to choose among the three color alternatives of burgundy, white, and olive green.

In harmony with mineralcast washbasin, bathroom furniture of İstanbul series is ready to find its place at home. As it stands out with its original form, mineralcast washbasin is complemented with cabinet area.

Six pebble looking showerhead in an organic form, dangling from the ceiling... It ensures the flow of water to a wider area to enhance shower pleasure. The İstanbul series has also won five prestigious awards.

As in the washbasin unit, subtlety stands out in the design of the faucets. Elegant and simple in form, washbasin and faucet complement each other.

## Ross Lovegrove

One of the most innovative and accomplished designers of the 21<sup>st</sup> century, and a recipient of countless awards, Lovegrove's work explores the creation of sculptural and organic shapes using sophisticated technology and materials. His design concept 'organic essentialism' is inspired by elements and aesthetics taken from the natural world and reshaped in futuristic forms. Sharing VitrA's passion for substantial innovation and design excellence, Ross Lovegrove represents the brand as its spokesperson in various platforms.

### Lacquer

Istanbul series is the winner of five different prestigious awards.

The black one, or the white one? Whichever you prefer, the faucets and accessories of the Istanbul series complement the elegance of bathrooms with their unique forms.

# Memoria

Designed by Christophe Pillet, the distinctively refined Memoria brings the warmth of natural textiles to bathrooms as well as the superior features and variety of mineralcast material. Memoria finishes include walnut, metallic grey and metallic mocha in a nod to contemporary trends.

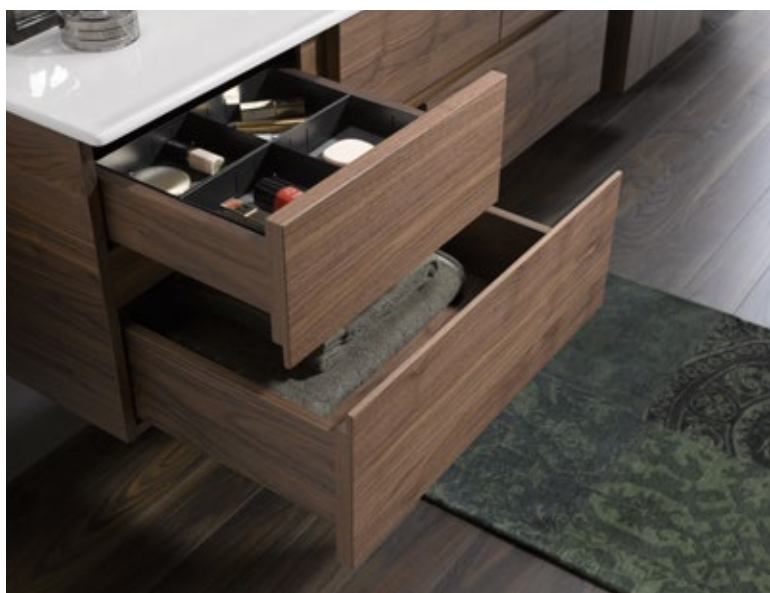

## Memoria created by Christophe Pillet

A multidisciplinary designer involved in many fields from product and furniture design, interior decoration and architecture to scenography and artistic direction Pillet creates furniture, objects and interior designs for leading brands and projects including Cappellini, Daum, JC Decaux, Driade, Ecart International, Emu, L'Oréal, Lacoste, Moroso, Porro, Renault, Serralunga, Shiseido, Shu Uemura, Veuve Clicquot Ponsardin and Whirlpool. Pillet also realizes interior architecture for restaurants, boutiques and hotels such as Hôtel Sezz in Paris. His close engagement with the fashion world is reflected in his choice of materials and forms. To quote Pillet, as a designer he seeks to express "simplicity, timeless design and a touch of distant elegance."

Storage cubicles at the back of mineralcast vanity basin, keep care products tidy and within easy reach.

Tall unit with special mechanism neatly stores away small items to expand the living space.

Washbasin cabinets with drawers are roomy enough to accommodate all personal bathroom items.

Unlimited form technology

# Memoria Mineralcast

A product of VitrA's mineralcast technology that sets the form free, Memoria mineralcast washbasins introduce a new style in the bathroom with their slim rims and sharp lines. Mineralcast washbasins without overflow holes stand out for their exceptionally precise aesthetics, and perfectly smooth hygienic surfaces.

## *What is mineralcast?*

Mineralcast is a composite material manufactured in Germany, which has high quality and stability. Mineralcast is composed of 80% natural minerals like marble, sand and quartz and 20% a special resin. The material gains brightness and color as the final layer of colored resin is spread on it.

Rectangular bowl, 80 cm

**Code:** M58000001000  
**Weight (kg):** 25  
**Material:** Mineralcast  
**Color:** White

Oval bowl, 80 cm

Round bowl, 40 cm

**Code:** M58000005000  
**Weight (kg):** 38  
**Material:** Mineralcast  
**Color:** White

**Classic style at its finest**

# Elegance

Time-honored lines and textures combined in stunningly pure forms transform the bathroom into a timeless classic... New Elegance series adds the natural splendor of marble and glass to exquisite Aria washbasins, offering a classic bathroom style at its finest.

The elegant cabinet has a spacious drawer to neatly store personal bathroom items.

### Energy Efficiency Classification for Elegance

VitrA

This luminaire contains built-in LED lamps.

**A++** LED

The lamps in this luminaire cannot be changed.

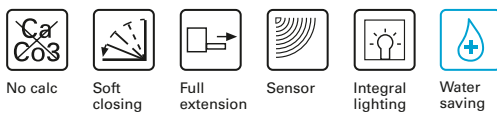

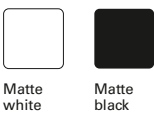

874/2012

The standard and mid units add a timeless glow to bathrooms with their glass doors. The curved legs are only one of the several details supporting the elegant style of the series.

### Lacquered

The oval mirror is in harmony with the design of the washbasin unit. The surround LED lighting ensures that it assumes a double function as a mirror and a lighting unit.

The marble, which is used as an alternative material on the counter, complements the classical design lines. Being a robust and more easily cleaned material, the marble proves to be practical for use.

## Washbasin unit, 100 cm

A touch of classics  
in the bathroom

# Aria

Classical refinement for bathrooms...  
Step out of time in the bathroom into  
a haven of contemporary comfort and  
classical purity of form with the Aria look  
that will never be dated.

Undercounter and countertop washbasins have wide bowl areas and differentiate from other washbasins through aesthetical inner bowl details, complementing the classical design language of the series.

Easy  
installation

**Bright ideas,  
detailed solutions**

# T4

Refined and restful. Composed and confident. Subtly seductive and surprisingly sensible... Vitra's T4 series is minimalist in style, but maximalist in function. Hiding a wealth of smart solutions behind its pure forms, T4 brings timeless elegance to the contemporary bathroom. T4 was created for Vitra by NOA Design Group who achieved a unique balance between elegance and simplicity, and developed clear and functional solutions exclusive to the series. INDEED designed the faucets in line with the series' restrained aesthetics. Flexible in application and rich in attractive choices, T4 will transform bathrooms into inspiring living space.

## **NOA and INDEED**

NOA Design Group designed the ceramic bathroom products, furniture and bathtubs in the collection. The faucets, on the other hand, bear the signature of INDEED Design Office.

T4 basin mixer which won an award for both design and functionality, features a cascade flow and it is in harmony with T4 series.

Bath mixer with cascade flow, offers an extraordinary bathroom experience.

The tub for two is the center of attraction of the bathroom with its soft contours and concealed shelf unit. Easy to install and uninstall.

Practical and convenient tall unit with shelves and drawers. All T4 furniture units are available in thermoform and lacquered materials and 6 different color options.

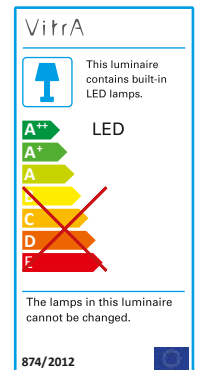

Equipped with concealed fixing mechanism, the WC seat joins the back part of the WC pan at the same height to create a clean and almost uninterrupted surface.

Smart solutions for small bathrooms: An integrated towel holder beneath the compact washbasin helps using the space more efficiently.

## Matteo Thun + Partners

The Italian architect Matteo Thun is known as one of the 'design gurus' of Italy. As one of the founders of Memphis, the Italian design group, in 1980s, he worked with many design experts including Ettore Sottsass throughout his career. Since he opened his own studio in 1984, Thun has undersigned designs that have always focused on 'aesthetics, economics and technological sustainability' ranging from faucets to hotels.

Colorful & bright

# Water Jewels

Carrying Matteo Thun's signature, the handmade washbasins transport the spirit of nature right into bathrooms. A product of a creative mastermind, the washbasins are available in a variety of colors and forms.

Water Jewels wall-hung WC pan introduces a visual integrity for bathrooms thanks to the concealed installation feature.

The Water Jewels washbasins have won 3 very prestigious awards.

Latest ideas for the contemporary family

# Nest Trendy / Nest

NestTrendy / Nest series represents high-quality design which is available to everyone in their bathroom regardless of bathroom size. With a wide range of functional products designed along new generation modularity, NestTrendy / Nest serves the needs of every member of the family. Ergonomic features transform a bathroom to a pleasurable space. NestTrendy / Nest yields practical solutions that offer family-sized comfort. Lines are pure and soothing, solutions are 'considerate' and 'attentive' to real needs. NestTrendy / Nest is a family focused designer bathroom, serving every member of the family with multiple features from the child step to night lights or easy to reach storage areas. Furniture, washbasins and faucets perfectly complement one another, creating an organic unity.

A narrow double door cabinet that goes with the asymmetrical washbasin saves space and helps to keep the bathroom neat thanks to its surprisingly wide storage area with silent and soft closing doors.

architecture excels**

# Metropole

Intelligent, innovative and timeless, Metropole series is designed to add value to architecture. Metropole offers nearly endless range of products to complement hi-tech prestigious projects. Metropole is the epitome of architectural aspirations, futuristic materials and visionary strategies. It is, in essence, a matrix that encompasses the codes of the present and the future, setting the architect free with its infinite variations and empowering design flexibility. Created by NOA Design Group, Metropole is a consummate bathroom series for projects designed with the urban future in mind, from hotels and malls to offices or homes. The innovative ideas developed for Metropole provide professionals with a key to a wealth of new spatial solutions.

The ceramic-cap of the syphon enhances visual integrity. The specially designed bowl prevents dirt building up on the surface; any residue will easily wash down the syphon.

## NOA

The German industrial design agency NOA breaks off from conventional outlook to develop contemporary product ideas and design solutions firmly anchored in the latest trends and possibilities in marketing and technology. The multiple award-winning NOA creates relevant products with a focus on aesthetics, function and innovation.

Concealed mounting allows for visual continuity and easier cleaning. The WCs feature water-saving 2.5/4 L flushing. WC pans are designed with extra clearance from the floor so that washing or mopping underneath will be very easy. Soft closing seats provide a safe and silent usage.

Freedom of choice

# Shift+ / Shift

Delightfully modular Shift+ designed by NOA enables personification of the bathroom to suit all kinds of needs and preferences. It's possible to mix and match the storage units of different sizes and position them any way wanted, to create a self-designed bathroom with handleless Shift+ units. Contemporary style Shift+ units are available in three colors, two materials and two depths.

With its wide range of sizes and colors, Shift+ gives freedom to shape the bathroom as desired.

## NOA

The German industrial design agency NOA breaks off from conventional outlook to develop contemporary product ideas and design solutions firmly anchored in the latest trends and possibilities in marketing and technology. The multiple award-winning NOA creates relevant products with a focus on aesthetics, function and innovation.

Featuring two drawers of different heights including organizers, the bathroom cabinet is an ideal choice especially for families who will appreciate the large storage space. Matching washbasins can be installed on the left or the right side of the counter. Available in acrylic or thermoform material, Shift+ cabinets are water-resistant.

Shift Rim-ex WC pan is easy to clean via its channel-free inner bowl design.

**Optimum solutions for bathrooms**

# S-Line

**S50+ / S50 / S20**

The S50 series were developed emphasizing contemporary architectural designs that are practical, balanced and aesthetic with soft lines. The series enhances and adds vibrancy to bathrooms and restrooms by complementing their designs with the S50+ furniture series. Alternatively, the S20 series includes round and square configurations that can be used to design and develop well-defined geometric modules.

**NOA**

Cutting edge technology, contemporary and innovative designs, reliability, durability and affordability are the corner stones of S-Line designed by NOA Design Group for Vitra.

The spacious washbasin has room on the sides for toiletries, 100 cm.

Bathroom furniture's doors and drawers have the softclosing mechanism. Tall units are available with or without drawers.

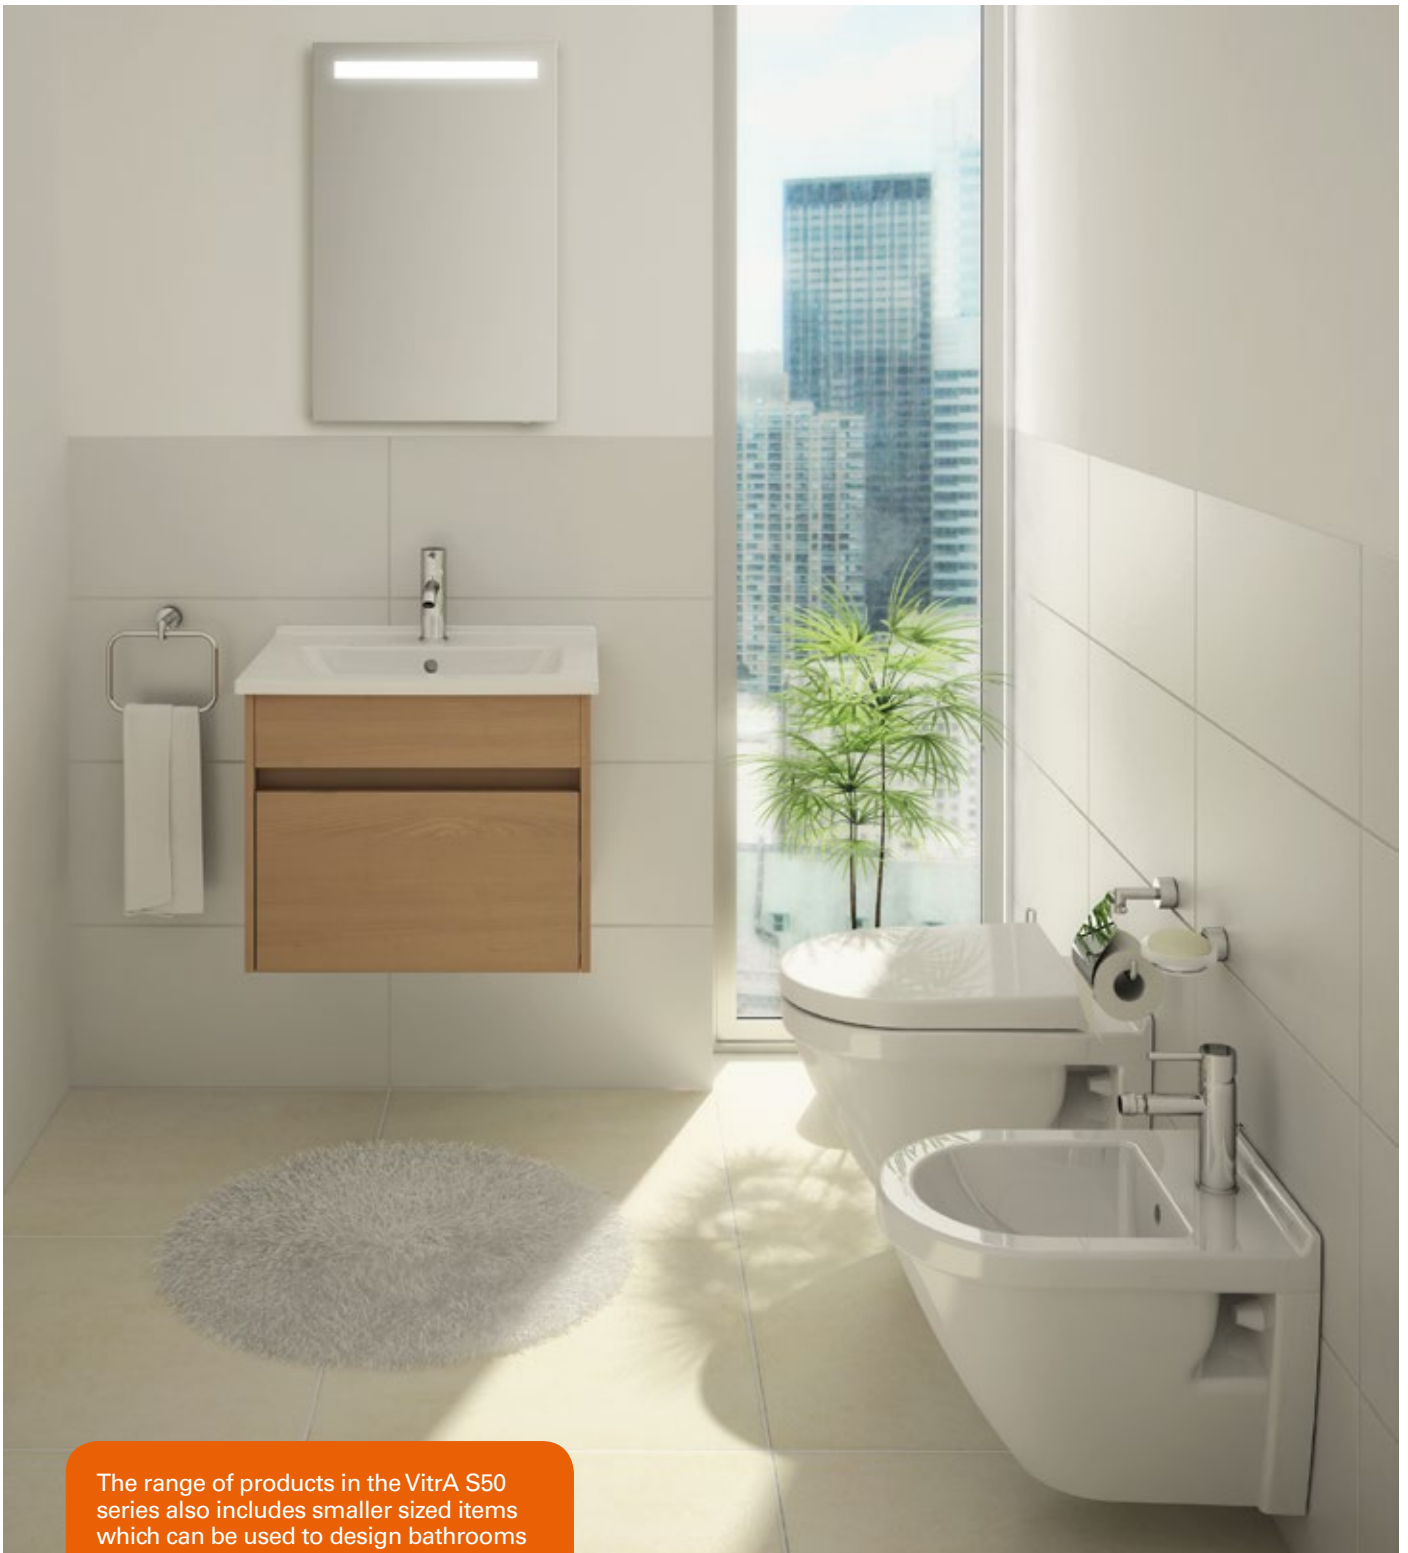

The washbasin unit is equipped with a special space saving syphon. As a result, the drawer beneath the washbasin can be totally utilized.

The VitrA S50 series offers flexible and practical solutions when designing bathrooms for personal use. The series includes a wide variety of hygienic, top quality and durable sanitaryware products.

The range of products in the Vitra S50 series also includes smaller sized items which can be used to design bathrooms with space limitations. Also, bathroom furniture immensely complements the overall scheme of the space.

Smart, functional solutions

# Accessible Bathrooms

In the bathrooms of Vitra that offer smart solutions for special needs, everything was diligently conceived and designed in line with the international standards. With its bathroom solutions ranging from A to Z for the comfort of all family members young and old, the Vitra series was founded on safety and comfort.

Special needs

Soft closing

The zero surface shower tray offers a comfortable use for the handicapped and elderly.

- ✓ Designed for convenient use by people with special needs, the washbasin is much easier to approach in a wheelchair, compared to standard washbasins.
- ✓ The grab bars ensure safe usage. The bars made of stainless steel are equipped with an anti-slip feature.

# Aqua

The flowing and billowing contours of Aqua products are united with the motion of water. Integrated with the mineralcast washbasin, the washbasin units have spacious storage areas and are especially ideal for narrow spaces.

Concealed overflow system in the washbasins provides extra hygiene for bathrooms.

The most important feature of washbasin units offered in the options of 80, 100 and 120 cm is that they are compatible with the mineralcast washbasins. The Aqua mineralcast washbasin can easily be repaired and always looks brand new thanks to polish applications.

accentuating the new colors

# System Infinit

Mineralcast washbasins find a perfect match in System bathroom furniture. Furniture is safe from water penetration due to vanity basins and thermoform technology. Concealed overflow syphon ensures excellent hygiene and visual integrity.

## What is mineralcast?

Mineralcast is a composite material manufactured in Germany, which has high quality and stability. Mineralcast is composed of 80% natural minerals like marble, sand and quartz and 20% a special resin. The material gains brightness and color as the final layer of colored resin is spread on it.

The background of the entire image is a light, neutral-toned surface covered with numerous water droplets of varying sizes. Some droplets are large and prominent, while others are small and numerous, creating a textured, bubbly appearance. The lighting is soft, highlighting the spherical shape and reflective surface of the water droplets.

# Sanitaryware and Complementary Products, Bathroom Furniture Icon Guide

## Water saving

Developed by VitrA with special bowl structures and low-flow internal mechanisms, the 2,5/4 L water conserving WC pan provide efficient flushing with less water and are certified for lowest water consumption by EU standards. When used together with VitrA concealed cisterns, these WC panS can reduce water consumption by up to 70%.

## Rim-ex

The smoothly attractive rimless WC pan Rim-ex prevents germ proliferation and offers superior hygiene thanks to its innovative design. Tests undertaken by the Akdeniz University show Rim-ex is 95% more hygienic as compared to standard WC pans.

## Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

## Natural veneer

Furniture surfaces are genuine wood veneer.

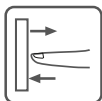

## Integral lighting

Special lighting system integrated behind the mirror provides a stylish and functional solution.

## Soft-closing

The gently slowed movement of drawers, doors and lids ensure silent operation and enhance safety for children or elderly users.

## Push to open

Designed without handles for an uncluttered symmetrical look, furniture doors and drawers are easily opened with a gentle push.

## VitrAclean

Limescale is persistent in most bathrooms. VitrAclean technology is a special double-glazing process that makes washbasins, WC pans, urinals and bidets water repellent. No harsh chemical cleaning agents are needed to keep them beautifully stain-free for years.

## VitrAhygiene

VitrAhygiene is a unique glazing process developed by VitrA to prevent germ proliferation in the moist bathroom environment. From washbasins to WC pans, bidets or urinals, sanitaryware produced with VitrAhygiene technology offer superior hygiene to users throughout the products' lifetime.

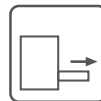

## Easy installation

Easy and quick installation with innovative applications.

## Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

## Full extension

Full extension drawers offer ease of use and optimum utilization of storage space.

## Heating function

Turned on or off with a button to one side. The matte metal piece will heat to a maximum of 55°C.

## Sensor

Eliminates lighting switches to provide a smarter look, turning lights on when approached or when lightly touched.

# Shower Area Icon Guide

## VitrA antislip

Developed to offer safety against the risk of accidents. Bathtubs and shower trays treated with VitrA antislip will not get slippery over the years as a result of frequent contact with soap and water.

## Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

## VitrAhygiene

Naturally dirt-resistant acrylic treated with VitrAhygiene for an even higher degree of sanitation and hygiene. VitrAhygiene applied bathtubs and shower trays will provide enhanced hygienic safety for long years with regular maintenance.

# Faucets and Accessories

## Icon Guide

### Maximum water conservation

Special cartridge of the faucets allows the user to set an upper limit on water flow. While standard cartridges yield 20 L/min. flow rate at 3 bar pressure, the special heat and flow rate adjustable cartridge can be set to a 2 L/min. flow rate under the same conditions to save water by up to 90%.

### Maximum energy conservation

The grey band on the cartridge can be used to set an upper limit on water temperature, saving energy by avoiding unnecessary heating.

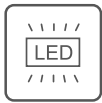

### Self-cleaning perlator

Prevents blockage for years on end by automatically discharging limescale and deposits up to 0,7 mm in size. Perlator doesn't need to be removed for cleaning. Ensures smooth water flow even under adverse conditions.

### Load-resistant

Tested for rigidity to withstand weights upto certain limits.

### LED-lit

Economic, long-lasting illumination with LED lighting.

### Focus mirror x2

Double magnifying.

### Focus mirror x3

Triple magnifying.

### Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

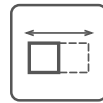

### Stickmaster

Special double-sided acrylic strip fixes products firmly in place without having to drill the wall for long durations.

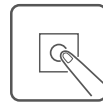

### No calc

The specially designed silicon perlator discharges any lime build-up at the spout with a single touch.

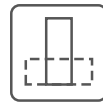

### Custom size option

In addition to the standard size, product can be made to order at technically expedient sizes.

### Switch button

Switch operated light can be turned on or off.

### Horizontal-vertical use

Product can be set up horizontally or vertically as desired.

### Soft-close

Special hinge for silent and soft closing.

# TIPS

## FURNITURE

- There may be differences among natural materials used in bathroom furniture such as color tone, design pattern and they may have natural features such as lines, shine and discontinuity. These features which enhance the natural appearance of the materials were established by standards in order to offer you a harmonious, natural appearance.
- Since the bathroom furniture is wooden, its prolonged contact with water may result in deformation. Therefore, in case of water splashes, please dry the area immediately with a soft and dry cloth. Please do not use abrasive cleaning substances to clean the bathroom furniture.
- If the furniture is to be placed next to a bathtub or a shower tray, a shower cabin is absolutely necessary.
- Attention should be paid to ensure adequate aeration. (Windows, air vents...)
- It should be made sure that water is not splashed or the water should be immediately dried in case of splash.
- For cleaning our bathroom furniture, we recommend that you only use a cotton-based, damp cloth. The damp cloth should be applied without pressure on the surface by moving it up and down. Rubbing by pressure should not be performed. Any persistent stains can be removed using a sensitive cleaning material (diluted alcohol). (Please do not use abrasive cleaning materials!) Then, wipe and dry it with a damp cloth.
- In case of splash stains, the mirrors and glasses should be only be wiped with a soft and dry cloth to remove the drops. Any persistent stains such as oil stains, cosmetic product stains should be removed with soapy water and a leather cloth for glass. Chemical materials, glass cleaners or harsh cleaning materials should absolutely be avoided! If the mirror is wiped with a damp cloth, it should be ensured that no drops are left on the edges. These areas should also be dried.
- Metal materials should be cleaned with a cotton-based, damp cloth and clear or soapy water, they should be dried with a dry cloth. Scratching and abrasive chemical substances should be absolutely avoided.

## FAUCETS

- The products operate at a city water pressure that is between 0.5-5 bars.
- It is recommended that a filter be used at the inlet of plumbs to prevent debris and foreign materials in the water installation. The filters of angle valves should be cleaned periodically (monthly).
- The aerators of fittings should be cleaned periodically (monthly).
- The recommended temperature for use as per standards is 65 °C. It is not recommended to use water above this temperature.
- In case of a danger of frost that may emerge if the ambient temperature of products falls below +5 °C, the water inflow should be stopped at the main inlet, the water in the plumbing should be completely drained, aerators removed and faucets left in open position.
- The air trapped in the pipes may be compressed and go above the standard plumbing pressure as the water is supplied again to the system following water cuts. To protect the products against this impact, a pressure-reducing valve should be placed on the main inlet.
- Acid-containing, lime-removing liquids, muriatic acid and dust removers, bleach, detergents containing sulfuric acid, nitric acid, hydrochloric acid and others or lime remover/decalcifier, chlorine-based bleaching agents, vinegar and vinegar acid should not be used since they harm the coating of the product. If such chemical materials are used for general cleaning in the place of your faucet, the area should be aired well and the faucets should not be subjected to the vapor of these chemicals. While cleaning the faucet, materials with abrasive/scratching effects such as wire wools and hard cleaning sponges should not be used. The faucet surfaces should be cleaned with a soft cloth and soapy water and they should then be dried. To remove lime, persistent dirt residues that will occur on your faucet in the long term, you are recommended to use the cleaning product Maratem 209.
- If there is need for a part replacement due to failures outside the scope of warranty, original VitrA spare parts should be used for product performance purposes.
- Since the faucets with even surfaces would have more water remaining on their surfaces as compared to inclined faucets, they should be cleaned and dried more often.
- The products should not be subjected to ultraviolet and sun lights for a long time as it may cause yellowing/discoloration problems in polished products.

## SHOWERING AREAS

- The cleaning of bathtubs and shower trays should be done using a liquid bathroom cleaner or lime remover and a soft cloth and warm water after every use. Otherwise, the soap products, dirt and limewater that did not melt form a thin layer on the acrylic.
- To clean the products, muriatic acid, abrasive detergent, soft soap and harsh/scratching cleaning sponge should absolutely be avoided.
- For the shower trays, the flush cover should be opened to remove the dirt deposited in the bowl. If the clog cannot be removed after using a drain opener, the VitrA Authorized Service should be contacted.
- For the wall-to-wall battery installations used in bathtubs, the output end of the battery should be minimum 15 cm long. The side surface inclination of a bathtub due to its side thickness and model should be taken into account. Using a battery with a short output end results in water splash and it prevents using a bucket for filling it with water.

## MINERALCAST

- All standard cleaning materials can be used with the products. Abrasive cleaning materials should not be used.
- To wipe the Mineralcast surfaces, soft, cotton-textured clothes are recommended for use.
- Attention should be paid to assure that the water temperature never exceeds 65 degrees during use.

# Warranty Periods

### **Ceramic sanitaryware:**

10 years for ceramic parts

1 year for fixing materials and gaskets

### **Seat covers:**

2 years

### **WC grab bars:**

2 years

### **Cistern mechanism:**

2 years

### **Concealed cistern:**

2 years for electronic controlled cisterns

5 years for manually controlled cisterns

### **Faucets:**

2 years for photocell controlled, SST electronic & Perfect time mixers

7 years for manually controlled faucets

### **Bathroom accessories:**

5 years

### **Bathroom furniture:**

2 years

### **Compact system and Whirlpool bathtub:**

2 years

### **Bathtub and shower tray:**

3 years

It should be also noted that any failure or defect resulting from inappropriate assembly and misuse is not covered by this warranty. VitrA will offer a free replacement or replacement parts (or the nearest equivalent) if the product fails due to manufacturing faults within the warranty period.
